Lexis[®]Smart *Forms*

Complete forms quickly and efficiently. LexisSmart Forms slashes administration time and reduces the risk of error.

- **Save time filling in forms** – our forms use the freely available, familiar Adobe Reader software so they're easy and intuitive to use. LexisSmart Forms also includes time-saving features like auto-calculators and expandable text boxes, additional pages and integrated guidance notes.
- **Share and review efficiently, with no need for a bespoke forms player** – just press a button to share documents in a neutral format for review.
- **Find forms faster** – with our dedicated forms portal, finding the right form is quick and painless. Direct integration for Lexis[®]Library customers means everything is in one place
- **Work directly from LexisLibrary** – complete integration with LexisLibrary means you can go straight from research to forms without switching application.
- **Work directly from LexisPSL** – switch directly from looking up practical guidance to filling out relevant forms – available in 9 LexisPSL practice areas.

Lexis[®]Smart *Precedents*

Create quality drafts of legal documents easily. LexisSmart Precedents automates the drafting process, making for fast, accurate document creation.

- **Save time on client service** – with quick, easy drafting of core documents.
- **Reduce risk** – documents are based on proven quality precedents with alerts when the law changes.
- **Draft documents more quickly** – a fast first draft can become a final draft when you can create documents by answering questions rather than drafting from scratch.
- **Work directly from Lexis[®]PSL** – switch straight from looking up practical guidance to drafting. LexisSmart Precedents cover all 9 LexisPSL practice areas.
- **Save time drafting** – with our professional support lawyers expertise, resulting in a comprehensive and accurate document.
